MEMORANDOM FOR UNDERSTANDING

Between

Shri Sai Polytechnic, Chandrapur and Softbuzz Tech Institution, Nagpur

Ref No. :_____ Date :- 28/03/2022

1. This MOU is signed between Shri Sai Polytechnic Chandrapur and Softbuzz Tech Institution, Nagpur for enhancing the industry intersection under the aegies of industry institute partnership cell.
2. Shri Sai Polytechnic chandrapur and Softbuzz Tech Institution.
3. The MOU under will be under the supervision of computer Engineering department and Softbuzz Tech Institution software partnership cell.
4. As per MOU Softbuzz Tech Institution will help the institute by granting the permission for
   a) Industry visit of Student /Staff.
   b) Six week industry training for student.
   c) Guest lecturer as per the expertise available in industry.
   d) Industrial project of final year student.
5. Shri Sai Polytechnic Chandrapur will help industry by providing
   a) Library faculty
   b) Help in arranging campus interview
   c) Information about the passed out student working looking for change in service.
   d) Organizing career counseling lecturer for wards of employee in you organization.
   e) Three day computer awareness program for workers in your organization.
   f) Soft skill Training Program.

MEMORANDUM OF UNDERSTANDING

The Electrical Engineering Student of polytechnic are framed with a view to promoted self-employment and employment amongst the youth. This is a skill oriented vocational education and therefore need industries cooperation for skill enrichment and placement of student and up gradation of institutes. A MEMORANDUM OF UNDERSTANDING is therefore entered

Between

R.S.ELECTRICALS SERVICES, CHANDRAPUR

on one part and

ELECTRICAL DEPARTMENT SHRI SAI POLYTECHNIC CHANDRAPUR (0138)

on the other part

This memorandum of understanding is entered with a view to promote industry institutes interaction for the purpose of up gradation of skill of vocational students, to provide inputs to suitably customize the curriculum and teaching methodologies , help faculty development and make the training more suitable for encouraging self-employment as well as for promoting employment the whole process shall be oriented towards better ties and close cooperation between both the parties and for drawing mutual benefits from the interaction.

It is accordingly agreed that

1. We would exchange information and data on training and skill requirements and data on the matters related to emerging need of industries and other service sectors.
2. We would work jointly to add essential skills/concepts in the existing curricula to eater local occupational need.
3. We would also jointly workout changes/revisions in the existing syllable and/or design new curricula looking to the changes in the technology and work requirements.
4. We would jointly review the availability of instructional material like text books laboratory manuals, chats data books models trainer's slides, filmstrips audio and video films and jointly work out a strategy for preparing instructional material as needed.

5. We shall work cut the requirements of essential machinery, equipment and tools required for different courses. We shall ensure their relevance and optimal utilization. We shall jointly workout the strategy for repairs and maintenance of institutional equipment sharing of equipment and resumes and replacement of absolved equipment of the institute and modernizing their laboratories and workshops. We shall also examine the possibility of giving certain equipment models etc. to the institutes for making the practical training more meaningful.

6. We shall workout the infrastructural requirements of the institutes and possibility of providing financial assistance from industries side to the extent possible for developing institutional libraries laboratories play grounds etc.

7. We shall jointly evolve a programmer for professional development and rarer advancement of faculty in the industry, providing guest faculty to institutes and drawing faculty members from institutes to give lectures to workers etc.

8. We work out a programme for bringing competitiveness in the work by amazing skill competitions debates on technical issues etc. We shall promote periodic technical exhibitions to encourage innovations.

9. We shall arrange for industrial visits of trainees in the vicinity and holidays and shall ensure that they are exposed to world of work.

10. We shall jointly arrange a programme for periodical evaluation of students as regards skills and knowledge. Arrangements shall also be made for providing communication skills and vocational guidance to the students.

11. We shall jointly prepare a scheme of execution of industrial jobs by institutes under production oriented training scheme part of earning shall be distributed among student to promote the concept" Train while learn" trainees will also be assigned aeration industrial problems to promote innovation.

12. Though this MOU has been entered for one to interaction both the institute and industry may act as interface for group of industries on one side and group of institute on other side to promote the idea of collaborative model on a large. Both the **Electrical Department SHRI SAI POLYTECHNIC CHANDRAPUR (0138)** And **R.S.ELECTRICALS , CHANDRAPUR** are pleased to enter into this Memorandum of understanding and strongly believe that this MOU would lead to a continuing period of meaningful interaction. Co-operation and exchange of information and idea. We both value the spirit of this agreement and shall make every attempt to develop various facets of this MOU. This MOU will be in force for period of **5 YEARS from date 30/01/2020 to 30/01/2025** and would be further continued as may be mutually agreed.
